simple connectives, pronouns)					
W3.3 use appropriate formats and conventions of short written texts.	e.g. P2 - notes, personal letters, signs P3 – diaries, recounts, poetry				
Generic Skills					
*Problem Solving (High order)					
PS1.1 develop ideas about the problem and identify sources of information and help	e.g. P1 - choose an appropriate present for a classmate. P2 – choose food items and prices for a menu. P3 – develop ways to clean up the sea.				
PS1.2 identify, under guidance, different ways of tackling the problem	e.g. P2 - preparing a duty roster for a class picnic. P3 – developing a new invention to clean up the environment.				
PS1. 3 choose and implement a solution plan, using support and advice given	e.g. P2 – students develop a way of sharing the basketball court so that everyone can participate equally. P3 – students propose a school recycling programme for paper and plastic waste.				
PS1.4 follow the given step-by-step methods to check and describe the outcomes	e.g. students make a solar powered calculator after being given the components and instructions.				
*Critical Thinking					
CT1.1 extract, classify and organize information from a source	e.g. P2 – students find the names of festivals and the countries that celebrate them from a book. P3 – students find different machines that generate electricity and classify them by type. (solar, geothermal, etc.)				
CT1.2 identify and express main ideas, problems or central issues	e.g. P1 - Read a conversation about what children are doing at recess in the playground and express opinions towards their behaviour. P2 – Read a

	<p>story about a restaurant and suggest new foods to be provided.</p> <p>P3 – Read a story about pollution and identify the main causes of different forms of pollution.</p>				
CT1.3 understand straightforward cause-and-effect relationships	<p>e.g. P1 – Billy is impolite to a teacher and is punished.</p> <p>P2 – A plant is put in a dark box and dies.</p> <p>P3 – Trees are cut down in the Amazon leading to animal extinction.</p>				
CT1.4 distinguish between obvious fact and opinion	<p>e.g. P1 – The ball is blue. vs. I think the ball is red.</p> <p>P2 – That man is a policeman. Vs. That man looks like a policeman. P3 – Taking short showers instead of long baths saves water. vs. I think that washing clothes uses a lot of water.</p>				
CT1.5 formulate questions, make predictions / estimations and hypotheses	<p>e.g. P1 – Will Billy be happy or sad?</p> <p>P2 – What happens to worms in the ground when it rains?</p> <p>P3 – What will happen when the landfill is full?</p>				
CT1.6 draw simple but logical conclusions not contradictory to given evidence and data	<p>e.g. P1 – If the wet towel stays in the sun, it will dry.</p> <p>P2 – If the boy continues to lie to his friends, he won't have many friends.</p> <p>P3 – If we dump rubbish in the sea, the pink dolphins will leave.</p>
